## Tournament Rules

- 1) Games will be four quarters lasting six minutes each with stopped time
- 2) Maximum two timeouts per game, per team
- 3) 30 second shot clocks

### **Scoring:**

IWP 3.3.2 Should the scores be level at full time in any game for which a definite result is required, such as a semi-final or final game, any continuation into extra time shall be after an interval of five minutes. There shall then be played two periods each of three minutes actual play with an interval of one minute for the teams to change ends. If at the end of the first two periods of extra time the score is equal, there shall be an interval of one minute. A third period of extra time shall begin and the game shall end when a goal is scored.

IWP 3.3.3 When a tied score occurs in a game where no definite outcome is required, such as a preliminary game, one overtime period shall be played after a two-minute break. The game will end when a goal is scored. Advancement in the bracket will be decided by overall wins in the bracket. If there is no clear winner from the comparison of win/loss records then goal differential shall decide advancement. The maximum differential per game to be used in calculating the total goal differential shall be +/- 10 goals. If goal differential is even, the team with the fewest number of major penalties shall advance. This shall prevent teams from intentionally running up scores against weaker teams and is intended to foster better sportsmanship.

### **Summary:**

- 1) In preliminary games most wins will advance. In case of a tie in number win/loss points, a single overtime period will be played after a two minute break. The first goal ends the period. If still tied, the team with the fewest ejections/penalties in round robin play will rank higher.
- 2) In semi- or final games, there are two overtime periods (3 minutes each) after a 5 minute break. Additional periods of play will continue if
